

Access

Codes are sent 30 days before opening night

Receive five editor seats (viewer included)

Integrates with any paid QLab license

Getting Started

Receive your access codes via email

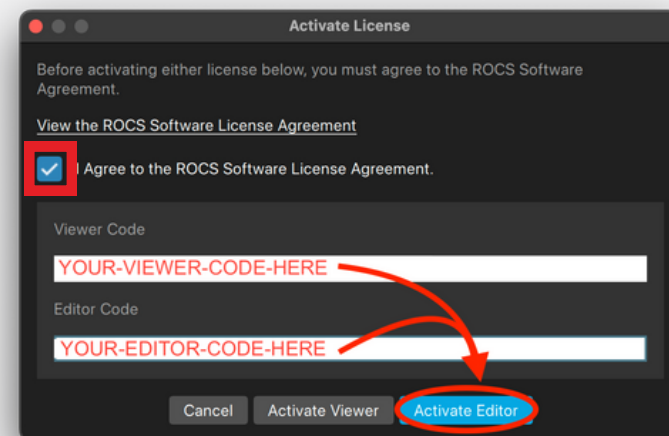

Download Stage|Tracks on your computer

Enter both access codes to activate

Viewer & Editor Code

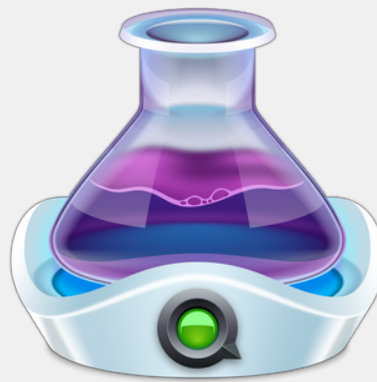

QLab Paid License

QLab is available only on Mac. You must have a **paid license** to use the integration.

Download QLab Workspace

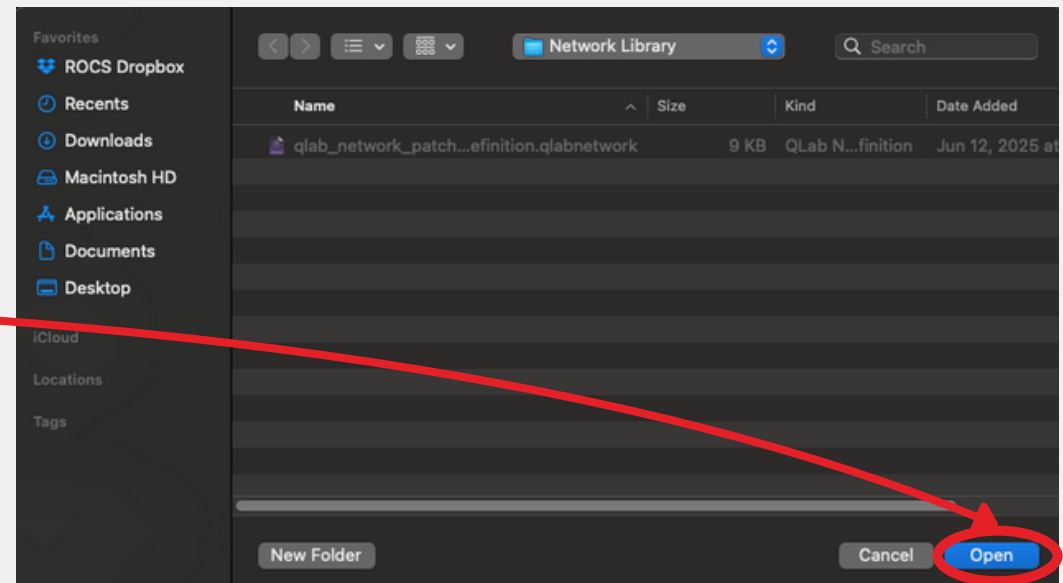

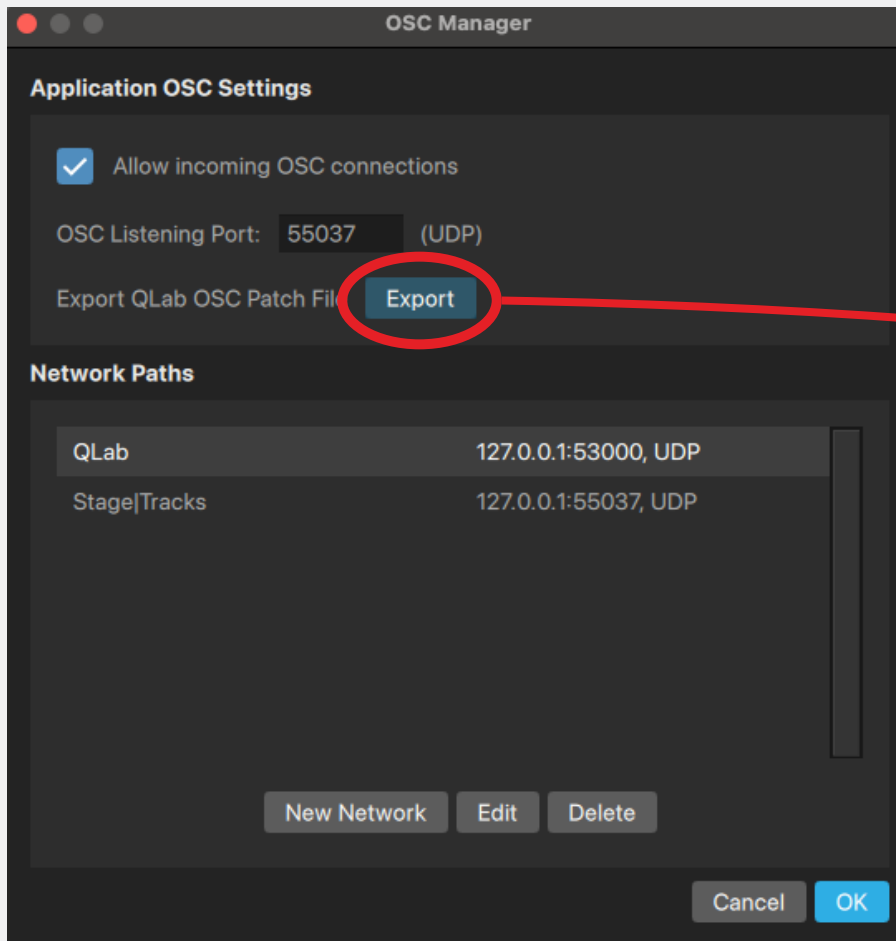

[QLab 4 Workspaces](#)

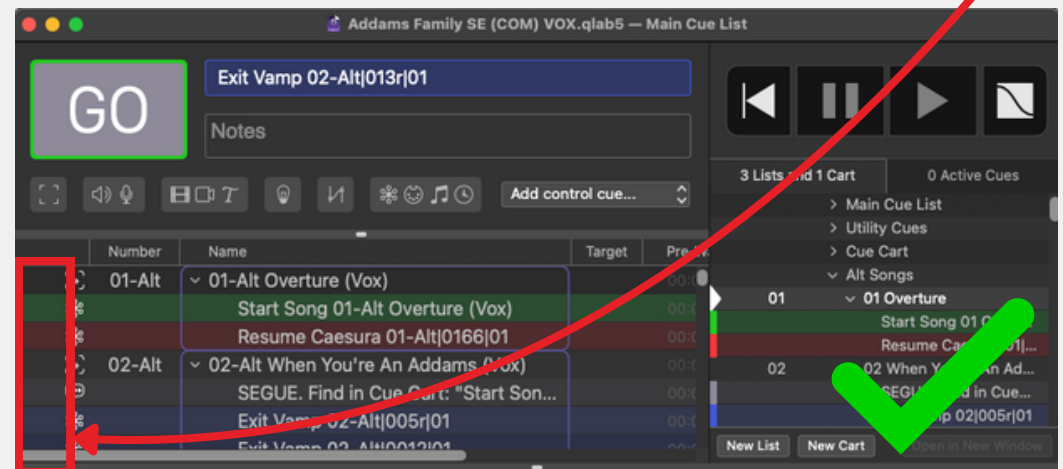

[QLab 5 Workspaces](#)

1. In the Stage|Tracks menu, click on “Tools” > “OSC Manager.”
2. Click on “Export” and select “Open” to save the network patch.

Integration Setup

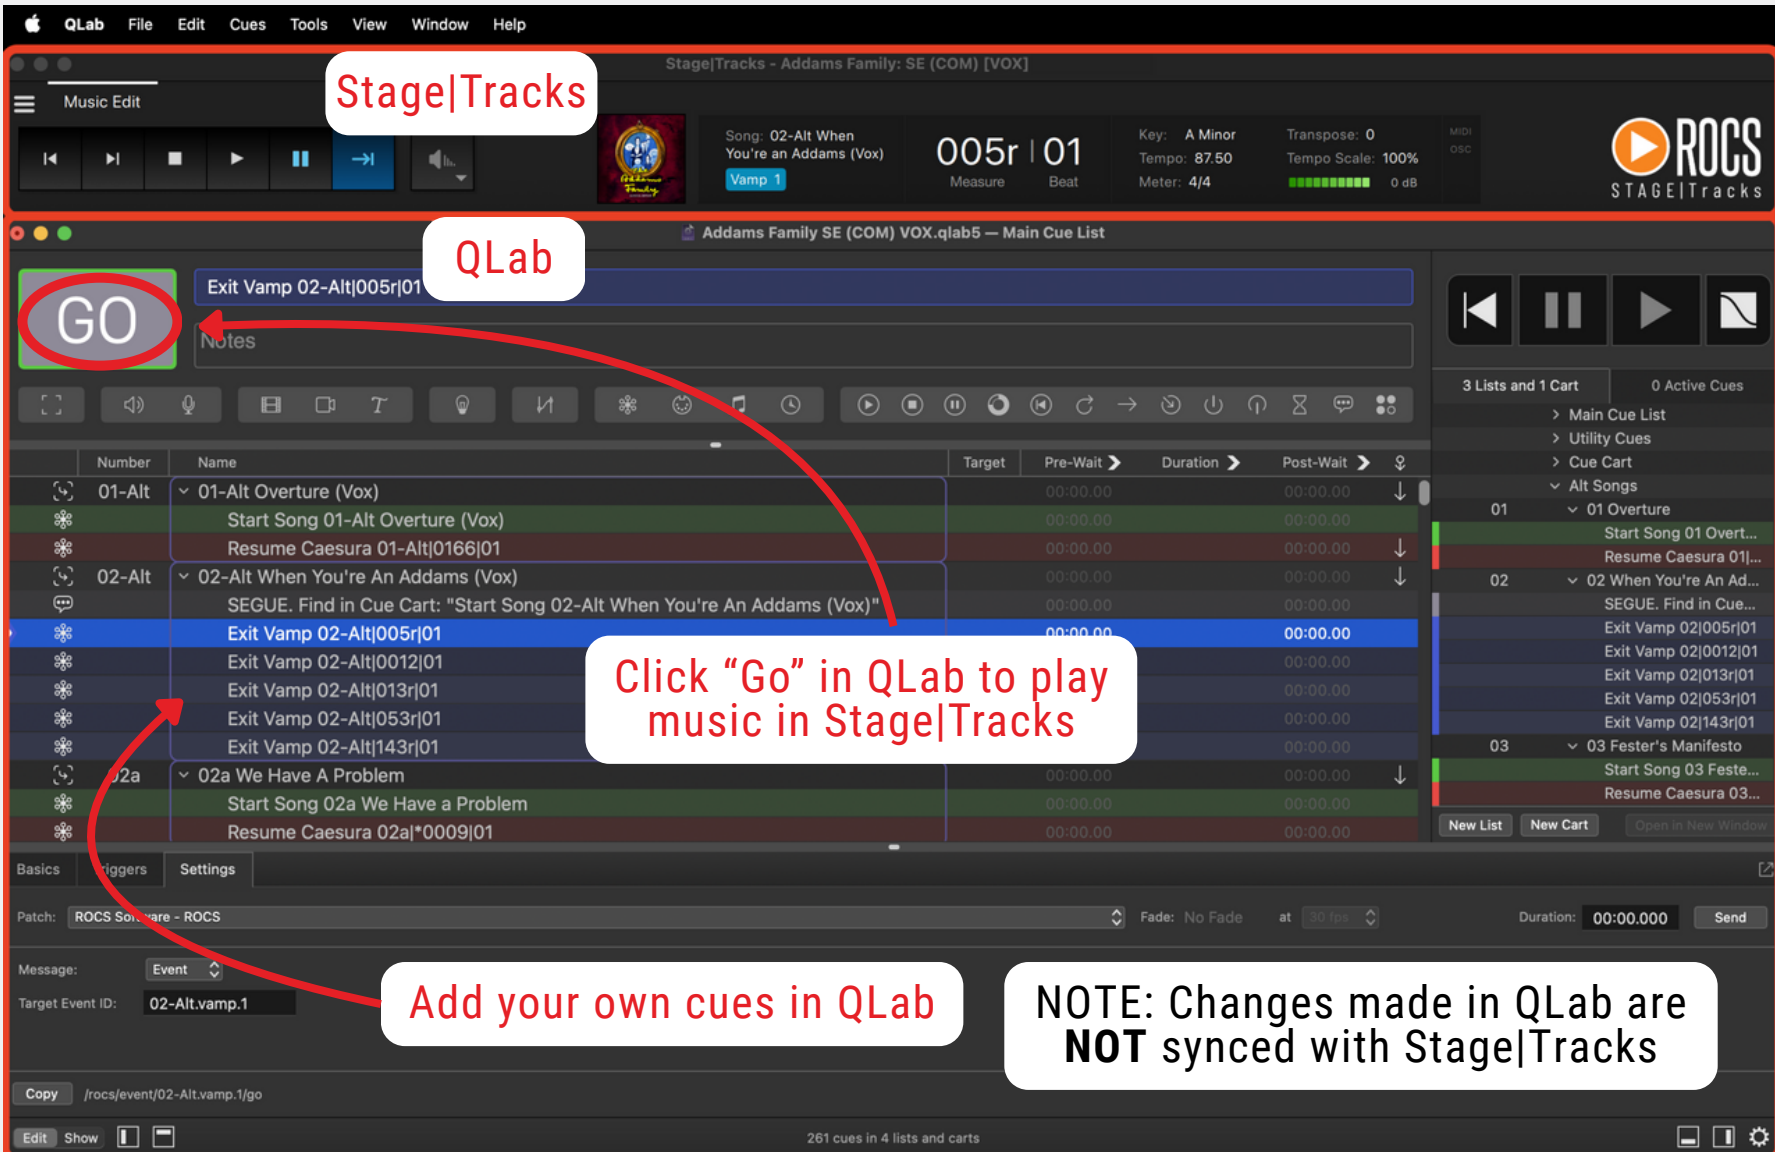

3. In QLab, open the workspace to make sure there are no red Xs.

Recommended Layout

We recommend having Stage|Tracks behind QLab so you know when to trigger / advance the cues in QLab.

The screenshot shows the QLab interface in the foreground, with Stage|Tracks visible behind it. A red box highlights the 'GO' button in the QLab interface, with a red arrow pointing to it from a text box that says 'Click "Go" in QLab to play music in Stage|Tracks'. Another red arrow points from a text box that says 'Add your own cues in QLab' to the 'Exit Vamp 02-Alt|005r|01' cue in the QLab cue list. A third red arrow points from a text box that says 'NOTE: Changes made in QLab are NOT synced with Stage|Tracks' to the 'Exit Vamp 02-Alt|005r|01' cue in the QLab cue list.

Stage|Tracks

QLab

Click "Go" in QLab to play music in Stage|Tracks

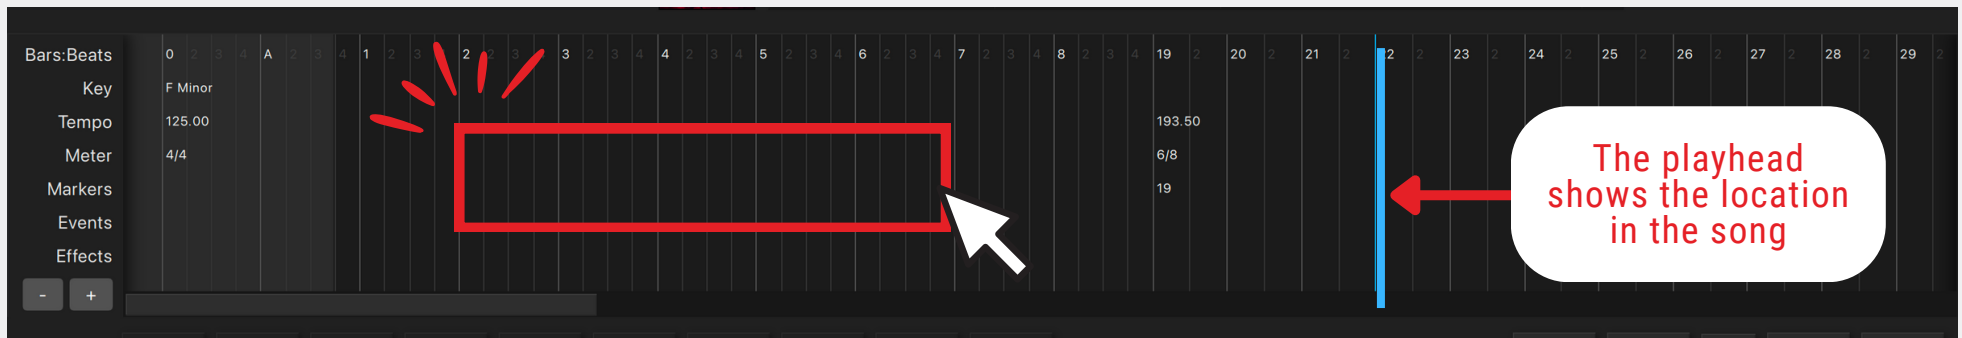

Add your own cues in QLab
