STAGE|Tracks™

Editor Quick Start Guide

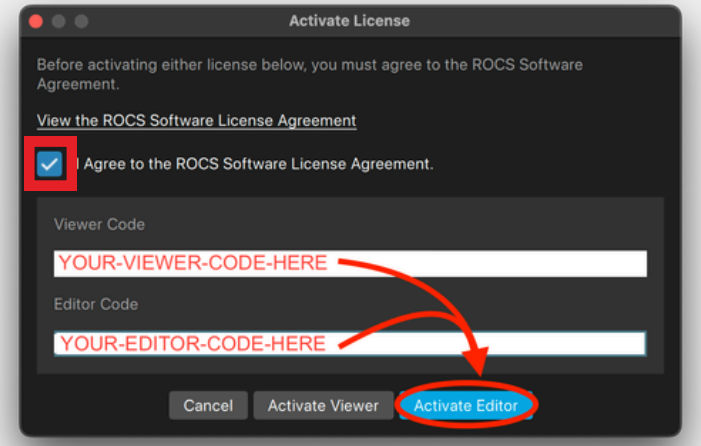

Access

- Codes are sent 30 days before opening night
- Receive five editor seats (viewer included)
- Integrates with any paid QLab license

Getting Started

- Receive your access codes via email
- Download Stage|Tracks on your computer
- Enter both access codes to activate

Viewer & Editor Code

QLab Paid License

QLab is available only on Mac. You must have a **paid QLab license** to use the integration.

Download the QLab Workspace

Licensing agreements require all music and sound effect files to be encrypted and remain within Stage|Tracks. Therefore, no audio files will be provided for upload into QLab.

However, ROCS provides you with a free, pre-built QLab workspace that includes all the cues you need to run Stage|Tracks from QLab.

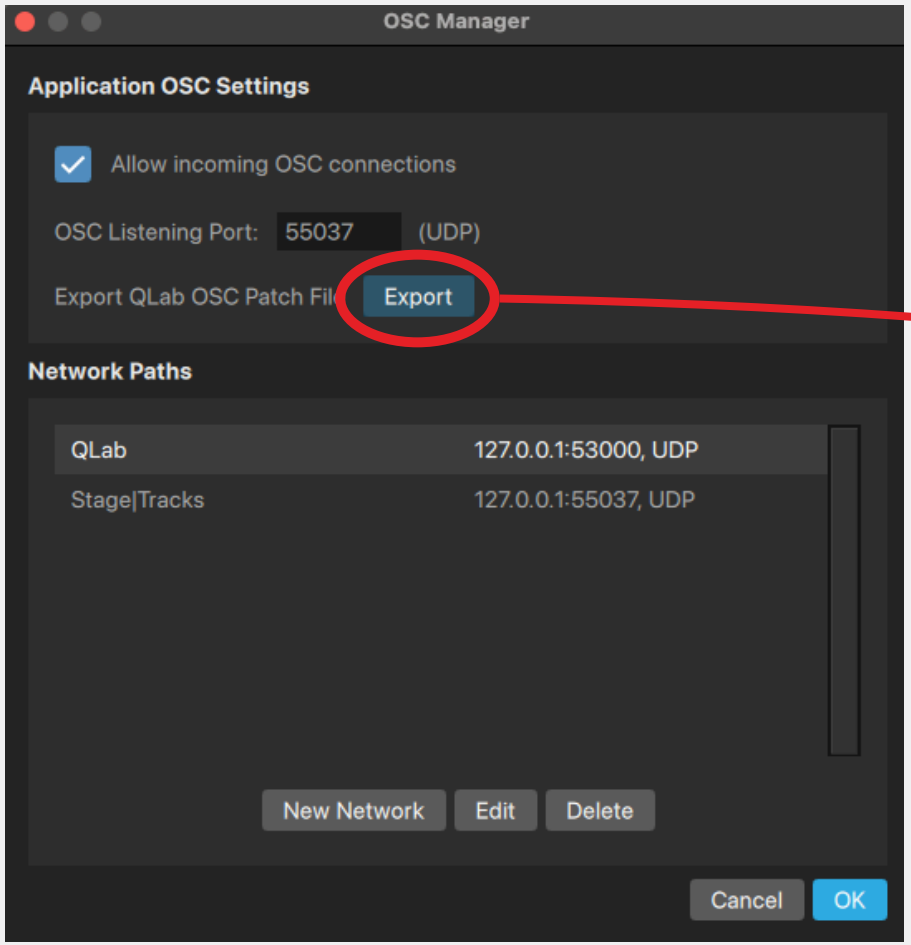

QLab Workspace Download

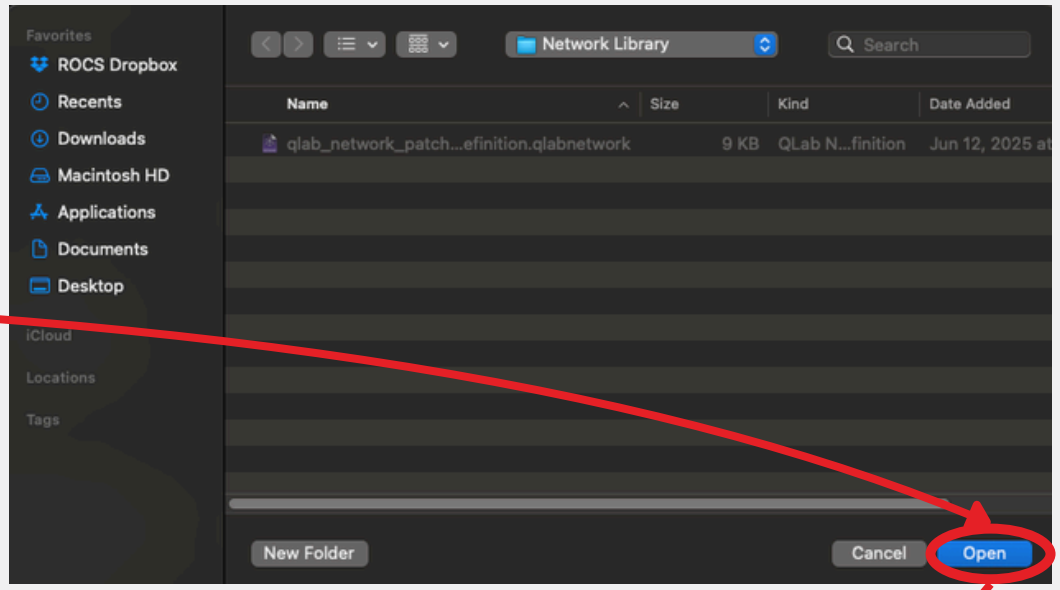

STAGE | Tracks™

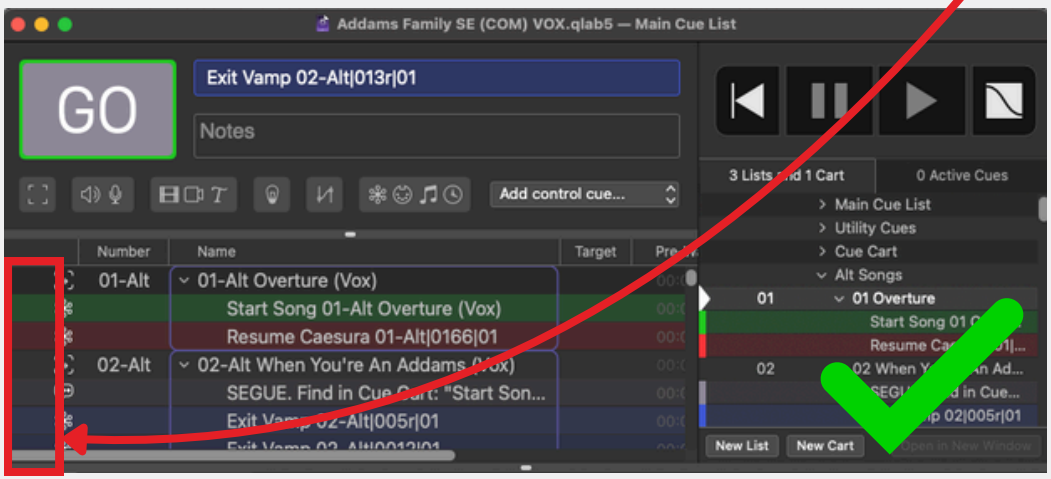

Editor Quick Start Guide

Integration Setup

1. In the Stage|Tracks menu, click on “Tools” > “OSC Manager.”
2. Click on “Export” and select “Open” to save the network patch.

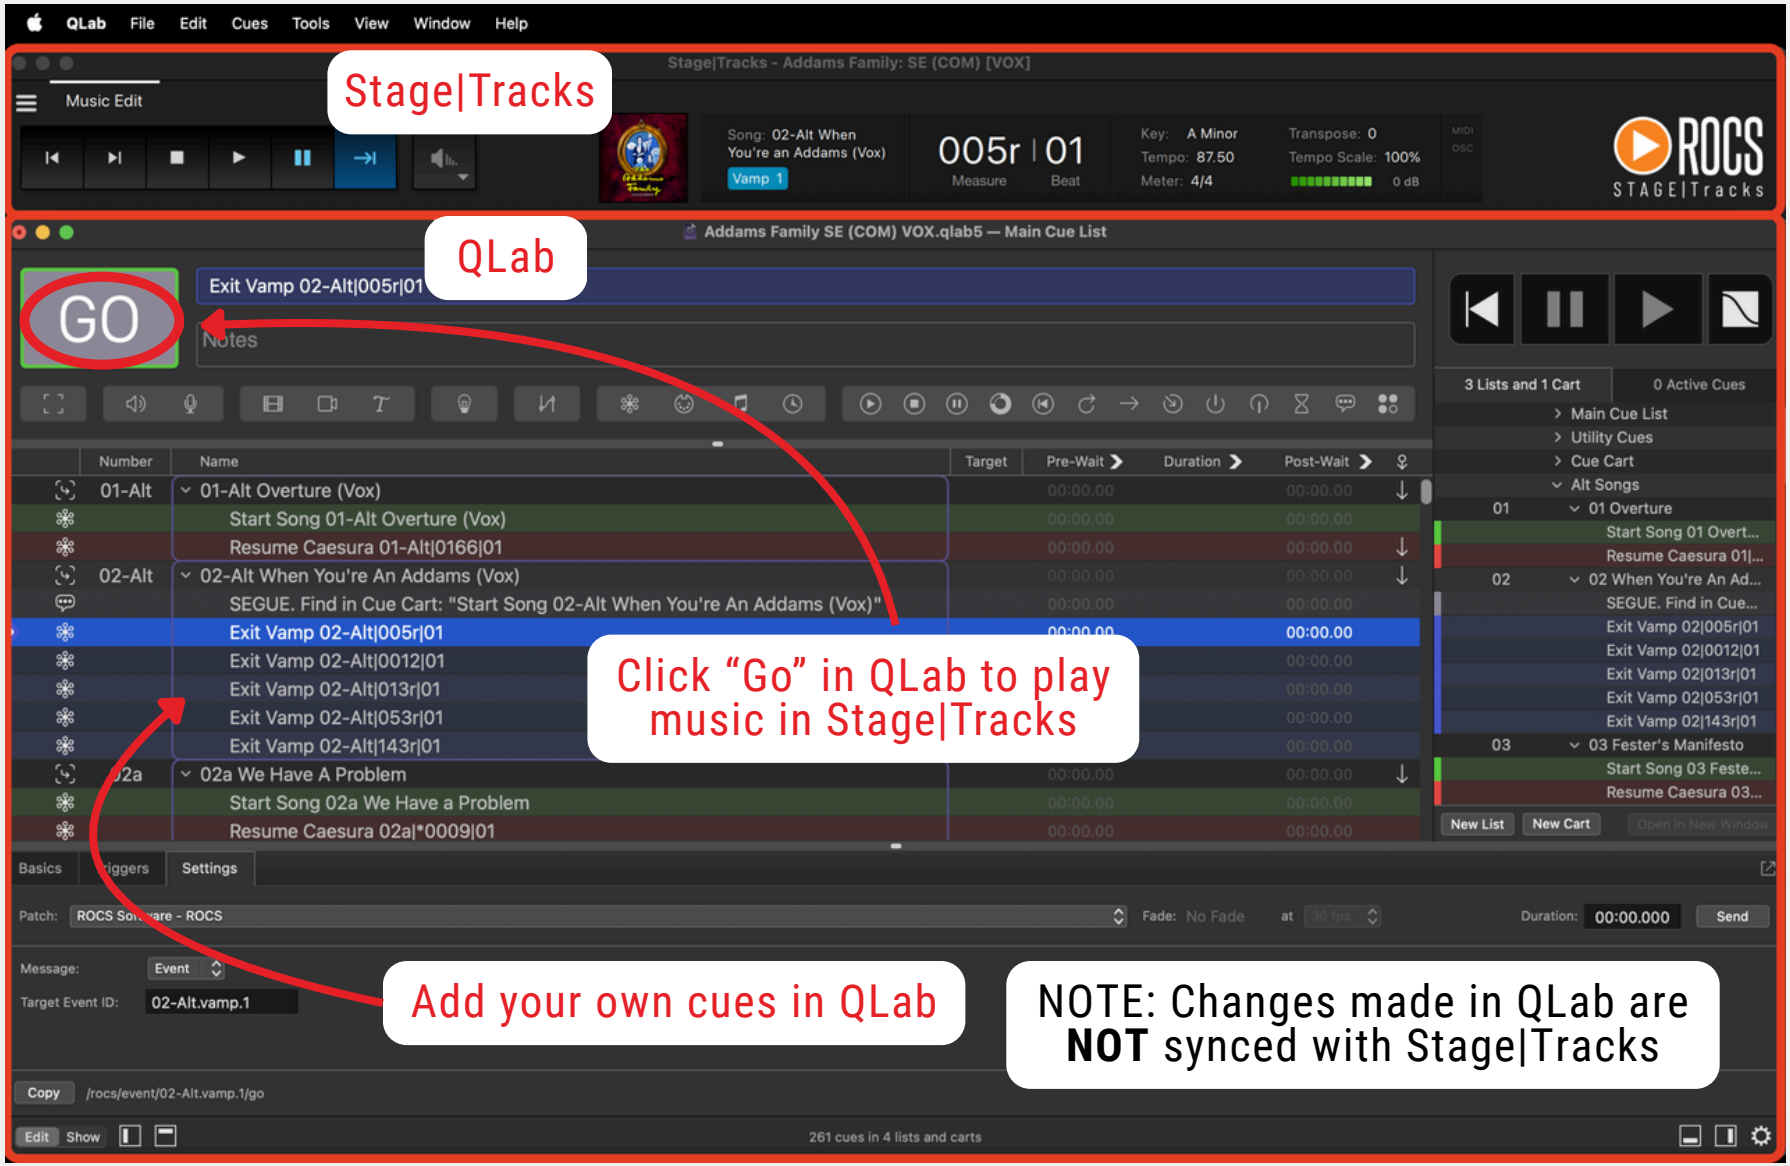

3. In QLab, open the workspace to make sure there are no red Xs.

Recommended Layout

We recommend having Stage|Tracks behind QLab so you know when to trigger / advance the cues in QLab.

Making Edits

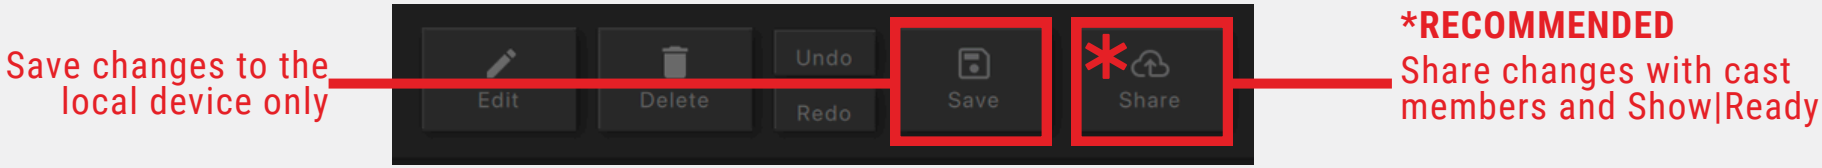

1. In Stage|Tracks, click and / or drag in the timeline to select.

2. Select any event control and click “OK” to save.

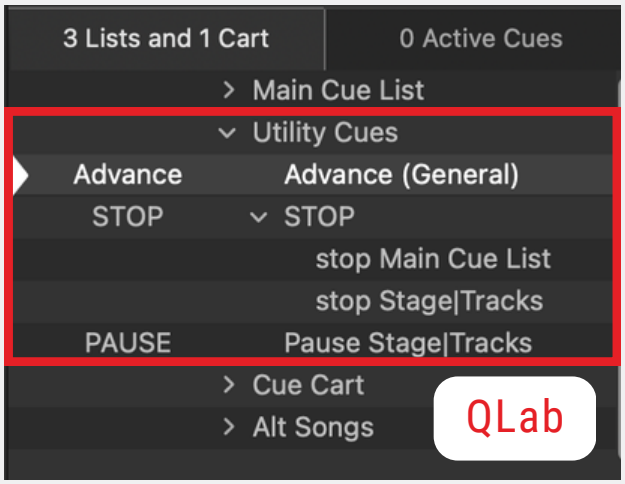

3. Share changes with cast members & Show|Ready. **Changes in ST are NOT synced with QLab.**

Utility Cues in QLab

Utility cues are keyboard shortcuts in QLab to help you control Stage|Tracks. They are included in every pre-built Workspace.
